New Found Glory

I've never felt so bad in my entire life But this time i did it to myself What do u expect from me? I did it So what do u expect from me

Let go of my hand Is it time to go? I'm not ready to turn my back on you yet I'm not going to let you down Let you down

September came so quickly I wasn't prepared I didn't mean to miss your birthday What do u expect from me? I did it So what do you expect from me?

Why don't you let go of my hand? Is it time to go? I'm not ready to turn my back on you yet I'm not goin to let you down

Bridges will fall from under us But we are strong We'll (we'll) get through this The earth will open up (will open up) And try to pull us in But we'll get through this Get through this
