

# Don't Let This Be the End

New Found Glory

Yes, your motives are tasteless  
But your mouth is so bittersweet  
When my worst fears surround me  
I'll just wait for you to sweep me right off my feet

And your face turns blush red  
As you scream for forgiveness  
The mistakes you can't forget  
Is the regret that you'll live with

Hey  
We're starting to break up  
We're starting to break up  
So please don't let this be the end

I'm not afraid of the consequence  
I'll take the blame for it all  
Oh, for the sake of the argument  
I'll just wait for my conscience to call

Hey  
We're starting to break up  
We're starting to break up  
So please don't let this be the end

We're starting to break up  
We're starting to break up  
We're starting to break up  
So please don't let this be the end

This is something new, oh  
And it's not what I'm used to, oh  
This is something new  
And I just might end up losing you

Hey  
We're starting to break up  
We're starting to break up  
So please, don't let this be the end

Please don't let this be the end  
Please don't let this be the end  
Please don't let this be the end  
Please don't let this be the end

All yours, all that we've done  
(We're starting to break up)  
Can't forget the places that you have been  
(We're starting to break up)  
I know that I'll see you again  
(See you again)
