

# If You Don't Love Me

New Found Glory

So lets put the past behind us,  
And focus on what's next  
When you write me off for good,  
Make sure that it sticks  
For a while I've been under your spell,  
And it blinded my inhibitions,  
So I'm keeping it from happening this time

Not just your body and your soul,  
It's in me to want it all,  
But I can't beg you to love me anymore.

So lets put the past behind us,  
And focus on what's next  
When you write me off for good,  
Make sure that it sticks  
For a while I've been under your spell,  
And it blinded my inhibitions,  
So I'm keeping it from happening this time

Not just your body and your soul,  
It's in me to want it all,  
But I can't beg you to love me anymore. [x2]

Oh, the secrets you keep...  
All the secrets you keep,  
So can I ask you about the sleepless nights,  
The cold shoulders never returning phone calls,  
Constantly questioning our chemistry,  
The look I'm used to you having,  
You hold back all you feel,  
And I expect this to come back to me.

Not just your body and your soul,  
It's in me to want it all...

But I can't beg you to love me anymore,  
If you don't love me.
