

## Scraped Knees

### New Found Glory

Looking back now I see how far I've gone it's been a while now  
for only one song past intentions I never ever meant to deal with now  
well just by looking around I don't think that I'll ever come down  
well you know right now that I am trying to change but believe now  
I'll try to change everything you know that I could rearrange  
and it gets harder and harder now well you know I want to change the past  
past intentions I never ever meant to deal with just by looking around  
well you know I tried so hard to change right now well just by looking around  
well I don't think that I'll ever come down all the way down
