

## Stories of a Different Kind

New Found Glory

You're 21 and jaded  
While I'm just trying to survive but you still  
See me smiling  
You're arrogant like you've made it  
Acting like the living dead  
But I'm the one who's alive instead

Fires, fighting, and long wasted nights have  
Become the moments that I live for

R: Stories of a different kind  
You do it for money while I do it for a good time  
And you can bet when it ends  
I'll be full of debt but I'll have no regrets

Rocket shooting you straight to the top  
And I'm afraid you miss the point  
And you need some reminding  
You're no pioneer, your way was paved  
A decade ago I was in your shoes  
But never had your attitude

Fires, fighting, and long wasted nights have  
Become the moments that I live for

R: (2x)

I've been around the world a thousand times  
Had people shouting out my name  
To later on forget all the words they sang  
And it never felt the same

R: (2x)

You'll be emptied files in a trash can  
And I'll be a good find in a used bin
