

# This Disaster

## New Found Glory

Are you aware  
Of how much you complicate me  
And are you aware  
Your words suffocate me

And dont deny  
That your talking behind my back  
To your friends  
And dont deny  
One day you will need me  
Need me

All my life  
I've been looking for the answers  
To the questions  
You never asked and  
We never planned on this distaster  
When will I let it go

So incomplete  
Your stare is cold  
Unlike anything I've ever seen  
So incomplete  
Your body is tired  
And falling apart at the seams

I wont deny  
I took no part in  
Never wanting you back  
Dont deny  
One day you'll need me  
Need me

All my life  
I've been looking for answers  
To the questions  
You never asked and  
We never planned on this distaster  
When will I let it go

All my life  
I've been looking for the answers  
To the questions  
You never asked and  
We never planned on this disaster  
When will I let it go

If its tonight  
Please let me know  
If its tonight  
Why dont you let me know

All my life  
I've been looking for the answers  
To the questions  
You never asked and  
We never planned on this disaster

When will I let it go

All my life  
I've been looking for the answers  
To the questions  
You never asked and  
We never planned on the disaster  
When will i let it go

All my life  
(I've been looking for the answers)  
(When will I let it go)  
We never planned on this disaster
