

## Tip of the Iceberg

## New Found Glory

When you are the furthest from me  
only photo keeps me company  
and all I have's a shred of hope  
and thoughts till I see you again  
All this time  
I'm waiting  
Wondering  
When will I see you again?

(2x)

This is just the tip of the iceberg  
No bone in my body tells me I deserve her
