

Crash

New Kids on the Block

These are the days of the times of our life
And we're gonna crash into it tonight
We gon' let the music and our bodies collide
Get ready to blast off,

Cause we're gonna crash
To the moon and the stars in the sky
We're gonna crash into it tonight
Into the music and out of your mind
Get ready to blast off
And we're gonna crash

The way you got me speeding
I don't wanna take it slow
My body's overheating as I feel you're getting closer
My heart is racing, this could be unstoppable
I can't describe the feeling I'll be feeling
As I crash into you

Oho, oho, you're in my headlights
Oho, oho, you've been shining all night
Oho, oho, ignore the stop signs
Let's go loose control, oh, oh, oh

Cause these are the days of the times of our life
And we're gonna crash into it tonight
We gon' let the music and our bodies collide
Get ready to blast off,

Cause we're gonna crash
To the moon and the stars in the sky
We're gonna crash into it tonight
Into the music and out of your mind
Get ready to blast off
And we're gonna crash

Don't ever hit the brakes girl I love the way you drive
200 miles an hour let the moment take you over
Fast lane, get you there in no time
I can't describe the feeling That I'm feeling
As I crash into you

Oho, oho, you're in my headlights
Oho, oho, you've been shining all night
Oho, oho, ignore the stop signs
Let's go loose control, oh, oh, oh

Cause these are the days of the times of our life
And we're gonna crash into it tonight
We gon' let the music and our bodies collide
Get ready to blast off,

Cause we're gonna crash
To the moon and the stars in the sky
We're gonna crash into it tonight
Into the music and out of your mind
Get ready to blast off

And we're gonna crash.

Cause we're gonna crash
To the moon and the stars in the sky
We're gonna crash into it tonight
Into the music and out of your mind
Get ready to blast off
And we're gonna crash.
