

## Keep on Smilin'

New Kids on the Block

Oh baby, yeah, girl, you always make me feel so good inside  
What about you and me?  
We were supposed to play for keeps. Home grown from the streets  
,  
The jungle in our reach  
It ain't about bein' a hood  
When you touch me like you should,  
I'll rule every day  
You let me in your world.

You see through of these years our love remains,  
The moon will never let the tide go away  
Through the pleasure and pain,  
Through the sunshine and rain,  
Baby, we keep on smilin'  
Through the laughter and tears  
And all of the years,  
Baby, we keep on smilin'  
Everybody says the same  
Baby, keep smilin', smilin' for me, come on now,  
Baby, keep smilin', keep on smilin'

Headin' out to the beach,  
Try to claim a few rays  
Jump in the back seat,  
We're gonna taste the grape,  
Red and white they both go,  
We're cruisin' the way.

That's right, pretty girl,  
No matter how hard things might get,  
You can always count on me.

Hey, you see

Baby keep smilin'
