

Never Gonna Fall in Love Again

New Kids on the Block

When I heard this crazy stuff about this other guy
I didn't believe it
Had to see it with my eyes
When I saw you and him, you passed me by
He's not your friend, he's the other guy

Whether it's wrong or whether it's right
Won't take me through the night
Told me that you loved me so
And you'd never let me go
You played the game you're not the same
I never thought you'd ever change
If it's got to be this way
I'm never gonna fall in love

Never gonna fall in live again
Never gonna fall in live again
Never gonna fall in live again
Never gonna fall in live
Never gonna fall in live again
Never gonna fall in live again
Never gonna fall in live again
Never gonna fall in live

I'm never gonna fall 'cause I fell
Lovin' you for me was like hell
How could you play me
Like a champ, a tramp, a cramp
Girl you did me worse than a food stamp
You told me I could trust ya
If I didn't I would crush ya
But never thought that one day I'd bust you
Walking in the sand, hand in hand with
Another man, I know your game plan
And now I understand
Love so deep is like sleep
And it will leave you blind
But I see how your living
So baby next time
Watcha gonna do now that the tables are turned around
I'm livin' swell and now you wanna be down
Step off 'cause baby I've learned
If you're messin' with fire you're gonna get burned
You still look dope but a dope I'm not
I can't get with you 'cause you're too hot

Never gonna fall in live again
Never gonna fall in live again
Never gonna fall in live again
Never gonna fall in live
Never gonna fall in live again
Never gonna fall in live again
Never gonna fall in live again
Never gonna fall in live
