

# One More Night

New Kids on the Block

She gets me high  
Lying on my bed with that look in her eye  
Reading the signs  
I'm riding every curve with her into the light, oh oh

I can't control myself  
Can't think of no one else  
It's like we lose ourselves, every touch  
Staring into your eyes  
Some kind of paradise  
Don't have to say goodbye

Give me one more night to love you (ooh)  
One more night to love you  
Give me one more night to love you (ooh)  
One more night to love you

Yeah, ooh  
Ooh, ooh  
Give me one more night to love you

I close my eyes  
Silhouette of you still dancing in my mind, oh yeah  
Damn, you're so my type  
And making love to you is like watching stars align, oh

I can't control myself  
Can't think of no one else  
It's like we lose ourselves, every touch  
Staring into your eyes  
Some kind of paradise  
Don't have to say goodbye, oh

Give me one more night to love you (ooh)  
One more night to love you  
Give me one more night to love you babe  
Give me one more night to love you (ooh)  
One more night to love you

Yeah, ooh  
Ooh (yeah ooh) ooh (oh, oh)  
Give me one more night to love you  
Yeah, ooh  
Ooh, ooh  
Give me one more night to love you

Tell me your fantasies, all of your darkest desires  
I'll be the one who can give you whatever you like  
Come put your hands on my body, let's do this thing one more time

Give me one more night to love you (ooh)  
One more night to love you  
Give me one more night to love you (ooh)  
One more night to love you

Yeah, ooh  
Ooh, ooh (one more night)

Give me one more night to love you  
Yeah, ooh (yeah, yeah, yeah, yeah)  
Ooh, ooh (give me one more night to love you)  
Give me one more night to love you
