

Time Is on Our Side

New Kids on the Block

Girl there's more to love than meets the eye
There's more to what I feel inside
And if I told you
Would you be my girl
For you I'd travel 'round the world

Time is on our side
You're my one true love girl
We've come too far to ever be just friends
Time is on our side girl
Let's show the whole world
Love is the answer
Time is our closest friend

If I sent you flowers
Would you walk away
Or would it be enough to make you stay
Even though we're young girl
One thing's for sure
In time our love will endure

Time is on our side
You're my one true love girl
We've come too far to ever be just friends
Time is on our side girl
Let's show the whole world
Love is the answer
Time is our closest friend

Babe what would you say
Time brings us closer everyday

Time is on our side
You're my one true love girl
We've come too far to ever be just friends
Time is on our side girl
Let's show the whole world
Love is the answer
Time is our closest friend
