

Baby's Gone

New Medicine

Sometimes I wish that I could be wrong,
All these thoughts that run through my head, yeah
This time I don't think I can be strong,
She's never gonna miss me, I never wished she went and loved me.

A thousand times we've been here before
You know she ain't coming back anymore.
And I'm a little bit scared, a little bit small
To feel like a man tonight at all.

Cause all night, all night my baby's gone,
And it feels like this time she's done me wrong.
She's my life, my love, my world
Please don't take away my girl.

'Cause I can't go on now that baby's gone

Did she really mean all the words that she said?
This will never work anyway, yeah.
All my dreams of her are all dead
Now all those memories in a picture frame
Are never gonna mean the same

Cause all night, all night my baby's gone,
And it feels like this time something's wrong.
She's my life, my love, my world
Please don't take away my girl.

'Cause all night all night baby's gone

(Baby's gone, you know, you know, you know she's gone.
Alright, she ain't, she ain't never coming back.)

I'm a little bit scared a little bit small
To feel like I'm a man tonight at all,
I'm a little bit tired, a little bit torn,
But please don't tell me I'm alright.

All night, all night my baby's gone,
And it feels like this time something's wrong.
She's my love, my love, my world,
Please don't take away my girl,

'Cause my heart's leaving baby's gone
And I'll stop breathing when she's gone.
Sitting all night, waiting on you
Staring at a door, you ain't going through

I can't go on, now that baby's,
I can't go on, now that baby's gone
