

## Far Better Thing

New Model Army

In the white washed cancer ward with my hot blood running wild  
I see the pain behind your eyes and the search for a reason  
And the knowing and the fear of the passing season  
Now please give me strength to cut and to keep our secret  
Please give me strength to cut

That the things we love may remain here still  
There is time to wait and there's a time to kill  
I see your outstretched hand through the closing door  
But it's a far better thing I do than I have done before

And so it seems that murder's not so hard - I've eaten flesh and  
blood each day  
And if I believe the things I write through the passing season  
Then with a rifle in my hand and with a thousand reasons  
I'll wait, far above the crowd in the summer sunshine  
And history changes now, forever  
That the things we love may remain here still  
There is time to wait and there's a time to kill  
From the barren land come the seeds of war  
So it's a far better thing that I do than I have done before
