

Brutal

New Order

Sometimes I feel that you're a part of me
Although it don't seem real, it's how I want it to be
But if you can't stay then I'll understand
You're just sawdust in my empty hand

If you can't decide, I'll still be true
Just open wide, I'm here for you

And if you think that you've found
A gentle sound, where love breaks down
It's alright and if you can't overcome
What gets you down don't get uptight, it's alright

I'm a shallow man in an hollow land
On a beaten track under your command
And the sound in my head goes round and round
Like a drunk on the stairs who just fell down

But now it seems like a distant dream
When it all lived wrong with our love supreme
And the sound in my head goes round and round
Like a drunk on the stairs who just fell down

And if you think that you've found
A gentle sound where love breaks down
It's alright and if you can't overcome
What gets you down, don't get uptight, it's alright
