## Mr. Disco

**New Order** 

How can I ever forget you You don't know just what I've been through The holiday we spent together Lives with me now and forever

I tried but I can't find you Tell me now what do I do I tried but I can't find you Tell me now what do I do

I can't find my piece of mind Because I need you with me all of the time I used to think about you night and day I used to feel what language cannot say Oh I can't find you No I can't find my piece of mind without you

Maybe you'd write me a letter And tell me why I never met you Our rendezvous just ended in sorrow Without you there's no tomorrow

I tried but I can't find you Tell me now what do I do I tried but I can't find you Tell me now what do I do

I can't find my piece of mind Because I need you with me all of the time I used to think about you night and day I didn't care what other people would say Oh I can't find you No I can't find my piece of mind without you

I can't find my piece of mind Because I need you with me all of the time I used to think about you night and day I used to feel what language cannot say Oh I can't find you No I can't find my piece of mind without you

Ibiza, Majorca, and Benidorm too I've searched all these places but never found you
