## **Perfect Pit**

## **New Order**

I stood there beside myself thinking hard about the weather Then came by a friend of mine suggested we go out together Then I knew it from the start this friend of mine would fall apart

Pretending not to see his gun, I said let's go out and have som e fun

- I know you know, we believe in a land of love I know you know, we believe in a land of love
- I have always thought about staying here and going out Tonight I should have stayed at home playing with my pleasure z one

He has always been so strange I'd often thought he was deranged Pretending not to see his gun I said let's go out and have some fun

I know you know, we believe in a land of love I know you know, we believe in a land of love
