Life is so crazy these days I don't know how to adjust Are we the master or slave? Do we need passion or lust?

Are we just caught in the days So many words in a phrase Life is so crazy these days (x2)

You've got me where it hurts
But I don't really care
Cause I know I'm OK
Whenever you are there
You take me to a place
I always wanna go
You always make me high
Whenever I feel low

I'm paper in your hand
I'm under your command
And I'll never let you go
Cause you're that girl

Tutti Frutti

I had a beautiful dream

For a picture so serene

But I don't know what it means - love

I just want your love

Generation's lost in space Trying to find the human race We're living in a state of grace Where every scholar means a dollar

And sometimes I just can't go on I feel like I'm a setting sun I know my eyes are burning bright I just need you to make it right

You've got me where it hurts
But I don't really care
Cause I know I'm OK
Whenever you are there
You take me to a place
I always wanna go
You always make me high
Whenever I feel low

Tutti Frutti

You've got me where it hurts
But I don't really care
Cause I know I'm OK
Whenever you are there
You take me to a place
I always wanna go
You always make me high
Whenever I feel low

You've got me where it hurts
But I don't really care
Cause I know I'm OK
Whenever you are there
You take me to a place
I always wanna go
You always make me high
Whenever I feel low

Whenever I feel low (x3) Cause you're that girl

Tutti Frutti

Non me interessa E non me interessa la vita reale Quella canzone E tu sei tutti frutti
