

We Are the Radio

New Politics

I know what we need
We need a gun and a cap
Cause I know how it feels
Now that there's no turning back
It's like a dream unreal, holding you in the past
I can feel the grief, that's why I'm tempered and mad

We are the radio whoa
We are the radio

Stop now!
J-just look what you've done
We've got a nation in fear
Oh no the war has begun
Thank God! We're throwing all of our bombs
Leading us with a cause to make the world become one

Now, I'm losing my mind
Searching for answers
In a dead man's eyes

It's and electric shock
B-b-b-brain damage!
We're in the media's touch
L-l-l-living like robots!
It's like we can't get enough
B-b-b-brain damage!
Who's got the deadliest touch
L-l-l-living like robots!
I'm the story on the radio

We are the radio whoa
We are the radio

Fuck that! I guess looks can deceive
And we're blinded by the serpent
So I'm pulling my sleeves (up)
Fight back! I'll give you just what you need
Stabbing your scaled skin body 'til my knuckles bleed

Everybody wants a story to tell
And everybody wants to know what is known
To the black man, the white man, the Indians and cowboys
I guess nobody's home, so don't release us

It's and electric shock
B-b-b-brain damage!
We're in the media's touch
L-l-l-living like robots!
It's like we can't get enough
B-b-b-brain damage!
Who's got the deadliest touch
L-l-l-living like robots!
