

## Technicolor Lover

New Radicals

She came from a world that is so far out  
Roller skating into my life I never had no doubt  
She asked where to get that velvet colored hair  
I said I got lot's more somewhere  
If you touch my big  
And she said I come from a world that is so far out  
And I said so do I  
And she may not be the worlds solution  
But shes a world class revolution
