

# I Was Right

## New Years Day

Oh oh... (3x)

I never knew that I was dealing with the graduate  
With a major in defensive and a minor in excuses  
It's not that hard to say your wrong, admit it oh go  
on, go on

You know I wouldn't want to make you feel worse then  
you should  
But if you were me you'd do the same (you know you  
would, you know you would)  
It's not that hard to say your wrong admit it oh go on,  
go on

Oh oh...  
It mean everything, just to hear you say to me  
That I was right, and you were wrong  
It's not that hard go on, go on

It mean everything, just to hear you say to me  
That I was right, and you were wrong  
It's not that hard go on, go on

I know you know it's all your fault, and I should let  
this go  
But I need to here you say love (it's principal, it's  
principle)  
It's not that hard to say your wrong, admit it oh go  
on, go on

Oh oh..

It mean everything, just to hear you say to me  
That I was right, and you were wrong  
It's not that hard go on, go on

It mean everything, just to hear you say to me  
I was right, and you were wrong  
It's not that hard go on, go on

I was right, you were wrong go on go on  
Go on go on...

It would mean everything  
(But your so smart and this never ends)  
So I tell you that I love you, and blow you a kiss  
(But until you say your sorry, well that's all your  
gonna get oh..)  
That's all your gonna get oh

Oh oh... (2x)

It mean everything, just to hear you say to me  
That I was right, and you were wrong  
It's not that hard go on, go on

It mean everything, just to hear you say to me

I was right, and you were wrong  
It's not that hard go on, go on

I was right, and you were wrong  
It's not that hard go on, go on
