

Let's Get Dead

New Years Day

Avoid the dreadful guillotine,
you know you've got to get this right
Where's the poison in your words?
You can kiss yourself goodnight
Jet black lipstick and a look in your eyes,
you're running out of time
Lay your heart out
Let's get dead and start over again
Get your revenge
Don't let them get much further
because they are getting away with murder
C'mon c'mon I dare to you impress me
Honey all that I'm suggesting is you'll soon go out of style
Tick tock tick tock you're just wasting my time,
I haven't got all night
Lay your heart out
Let's get dead and start over again
Get your revenge
Don't let them get much further
because they are getting away with murder
Let's get dead c'mon!
