

## Other Side

New Years Day

It looks so easy  
being trapped inside this head of mine.  
Disturbing dreams, and haunted beings they control my mind

Dark desires fuel the fire suffocating i can't breath.  
Bet you'de love to see me burn, so move aside or come with me.

I will always be a tortured soul  
Don't fix me up, just let me go.  
Come join me if you like  
I'll be on the other side

How did i end up this way?  
How did i end up addicted to pain and suffering?  
I have sealed my fate

Dark desires fuel the fire suffocating i can't breath.  
Bet you'de love to see me burn, so move aside or come with me.

I will always be a tortured soul  
Don't fix me up, just let me go.  
Come join me if you like  
I'll be on the other side

I have a slight confession  
I brought this on myself  
Will never learn my lesson  
I know what i've become

Come with me..

I will always be a tortured soul  
Don't fix me up, just let me go.  
Come join me if you like  
I'll be on the other side
