

# Razor

## New Years Day

Razor

Making headlines and headstones  
Breaking hearts and breaking bones  
Your life's a performance, so let the cameras role

Razor

You know it's all too good to last  
If it's not too much to ask  
Slow down, slow down, slow down before you crash  
Oh, before you crash

Razor

You're such a fatal attraction  
Your friends are only for fashion  
We may last for a while, but we'll go out of style

Razor

You know it's all too good to last  
If it's not too much to ask  
Slow down, slow down, slow down before you...

Crash, crash into my arms

Put down your guard disarm, disarm  
You think this whole world's against you  
It's never your fault, we're the ones with the issues

Crash, crash into my arms

Put down your guard disarm, disarm  
You think this whole world's against you  
It's never your fault, we're the ones with the issues

Crash

Slow down before you

Crash

Slow down, slow down

Crash

Slow down, slow down, slow down

Razor, razor, razor

Crash, crash into my arms

Put down your guard disarm, disarm  
You think this whole world's against you  
It's never your fault, we're the ones with the issues

Crash, crash into my arms

Put down your guard oh disarm, disarm  
You think this whole world's against you  
It's never your fault, we're the ones with the issues

You think this whole world's against you

It's never your fault, we're the ones with the issues
