

Chaos

New Young Pony Club

You like your motor on
The world is in your wake
Revvng up for your snow white side show
That never deviates

You've got the people singing
La la la
Strung out on your Midas moment
You've got the people singing
La la la
Whitewash on your life as the lights go down

Oh no
The things you'll never know
You've got the moment, tell me what's the answer
You've got the instinct, tell me what's the answer
Oh no
The things you'll never know
You've got the moment, tell me what's the answer
You've got the instinct, tell me what's the answer

You like a little chaos
We like a little thrill
Don't take the breaks that were meant to save us
Make life a bitter pill

You've got us lining up, line on line
You've got us lining up, line on line
For the answers you wake up with

Oh no
The things you'll never know
You've got the moment, tell me what's the answer
You've got the instinct, tell me what's the answer
Oh no
The things you'll never know
You've got the moment, tell me what's the answer
You've got the instinct, tell me what's the answer

Line on line
You've got us lining up (line on line)
You've got us lining up, line on line
You've got us lining up (line on line)
You've got us lining up
You've got us lining up

Oh noooo
The things you'll never know
You've got the moment, tell me what's the answer
You've got the instinct, tell me what's the answer
Oh noooooooo
The things you'll never know
You've got the moment, tell me what's the answer
You've got the instinct, tell me what's the answer

Oh no
Oh no

The things you'll never know
