## Newsboys

And every generation's got  
The fearless few who can't be bought  
They don't take polls or look around  
They act on truth, and then they stand their ground

Come up and see the world stripped bare  
The free indeed  
They breathe a rarified air  
Yeah, they got spirit  
Yeah, they got game  
And some get christened  
With a righteous-sounding name

Cornelius

And every generation knows  
The doers do, the posers pose  
'Cause every time the plop goes fizz  
Another yes-man gets his

Come up and see the big man's boss  
The mind clears out when you're taking up the cross  
Yeah, his burden's easy  
No, it don't chafe  
It's God's safe harbor  
Why play it safe?

Cornelius

Core-strong like a centurion  
I wanna be Cornelius  
Core-strong like a centurion  
I wanna be Cornelius  
His kneel is real  
His kneel is real  
What rhymes with Cornelius?  
Helium

The "cor" is before a kneel, a kneel  
The "i" is an "e" in us, in us  
He's ready to fight but not to fuss  
We like, we like Cornelius

And history proves the axiom  
Surface skimmers choke on scum  
Who's calling deep?  
Who opens wide?  
Who put the just in justified?

Check, check it out - the view you get  
It's God's high-wire  
There isn't any net  
Show a little spirit  
Show you got game  
Show you know  
We know, we know  
You know what's in a name

He's ready to fight  
But not to fuss  
Cornelius

He isn't a wuss  
He never was  
Cornelius
