

I Got Your Number

Newsboys

I got your number
Where love can be found
I got your number
Where truth can be found
I asked you in one day
And you came into my life
I got your number
For the rest of my life

I can feel your love
Flowing out to me
Each day and night
I can see clearly now
I see your eyes in the starry skies
I can feel your life flowing out to me
With each breath I take
I can see clearly now
Your Spirit has shown me the perfect way

I got your number
And I'm happy to say
You set my heart on fire
With every move you make
When you walk into a room
It lights up with your grace
I got your number now
It's the hot line to your place

I can feel your love
Flowing out to me
Each day and night
I can see clearly now
I see your eyes in the starry skies
I can feel your life flowing out to me
With each breath I take
I can see clearly now
Your Spirit has shown me the perfect way

You say you say you want
You say you say you want
You say you say you want to be free.

You want you want you want
You want you want you want
You want you want you want to be free.

You can you can you can
You can you can you can
You can you can you can be free.

I got your number
It's written deep within my heart
You filled that emptiness
And lighted up a new part
There's much more to life
Than other numbers on the wall
I got your number

It's burning deep within my soul

I can feel your love
Flowing out to me
Each day and night
I can see clearly now
I see your eyes in the starry skies
I can feel your life flowing out to me
With each breath I take
I can see clearly now
Your Spirit has shown me the perfect way
