

Live In Stereo

Newsboys

This field guide's got no soul
Digging for the sacred
In a man-made hole

The soil gets harder
The shovel won't behave
I just dug myself
Into a six foot grave

I need a new dimension
Got to Supersize
A Jacobean ladder
To a parallel prize

The walks by faith
The sight lines lie
How am I gonna tag along
With one tin ear
And one glass eye?
Well I...

I can't get there from here
When every sense is in mono
Walk by faith, you appear
I wanna live in stereo

I can't get there from here
Without a God-directed go
Walk by faith, you appear
I've gotta live in stereo

I quit, I fold, I'm done
Trying to scale Everest
Sherpa-less
Ain't fun

The best-laid plans
Are in my other pants
The base camp's buried
In an avalanche

I need a new dimension
Got to Supersize
A Jacobean ladder
To a parallel prize

The walk's by faith
The lone wolf dies
How am I gonna follow you
With blue man ears
And snow blind eyes?
