That's how you change the world  
That's how you change the world

All my life I had big dreams  
To do big things and make a change  
And all the while, I just passed by  
The simple needs right here next to me

'Cause there's a breaking heart  
That's fallin' apart  
And tear filled eyes lookin' back at me  
God, won't you help me to see

It's the prayer in an empty room  
Little things we do when nobody's around  
A hand reaching out to a heart in doubt  
It's the smallest spark that can light the dark

That's how you change the world  
Oh oh oh oh (Change the world)  
That's how you change the world  
Oh oh oh oh (Change the world)

A million little drops of rain  
Can be enough to cause a tidal wave  
A flood of Your love  
That no one can contain

'Cause there's an empty soul  
That wants to be known  
Around me now, that I can lead to You  
Revealing love that won't refuse

It's the kind words  
A simple smile  
More than showin' up  
Going the extra mile  
It's giving everything  
When you've got nothin' left  
Sharin' a little hope  
With a single breath

That's how you change the world  
That's how you change the world

It's the prayer in an empty room  
A hand reaching out to a heart in doubt
