

Long before I was ever formed in my mother's womb
You knew and loved me
Then You came and You rescued me showed me the truth
Of what my life could be

Now when I try to explain all the joy all the love I'm feeling'
Feeling in my heart
I start thinking about who You are

Words like cherish come to mind
Every time that I'm reminded how You set me free
And just how much You love me
Words like mercy and grace
Bring a smile to my face
I know that there is nothing that could ever keep us apart
Because I know I hold
A special place in Your heart

There were days I was so amazed that I made it thru
But You were right there beside me
And there were nights when I closed my eyes and I called out to
You
And Lord You helped me to believe

And when I try to explain all the joy all the love I'm feeling
Feeling in my heart
I start thinking about who You are

I'll spend my life
I'll keep telling the story
To everyone who would believe
How God would come down
From all of His glory
Out of love for someone like me
