

# Every Victory

NewSong

My heart shall not be moved  
My faith not overwhelmed  
Troubles they will come  
But even in the storm  
My eyes are fixed on you  
My soul is resolute  
Troubles may arise  
But even in the trials

On this I stand  
On this alone  
All my hope  
All my strength  
And all my confidence  
Is in knowing I've received  
Every Victory

Through the cross  
Through the blood  
It is finished it is done

I am saved  
I am free  
You are Every Victory

The grave is overcome  
My shame has been redeemed  
Sin is washed away  
Mercy took its place

On this I stand  
On this alone  
All my hope  
All my strength  
And all my confidence  
Is in knowing I've received  
Every Victory

Through the cross  
Through the blood  
It is finished it is done

I am saved  
I am free  
You are Every Victory

Oh, You have Won  
You have won  
And the enemy  
Is forevermore underneath Your feet

You have Won  
You have won  
And the enemy  
Is forevermore underneath Your feet  
Yes, he's underneath Your feet

All my hope  
All my strength  
And all my confidence  
Is in knowing I've received  
Every Victory

All my hope  
All my strength  
And all my confidence  
Is in knowing I've received  
Every Victory

Through the cross  
Through the blood  
It is finished it is done

I am saved  
I am free

You are Every Victory

Every Victory
