

# For Goodness Sake

NewSong

When I was down to my last breath  
You were there to love me  
Just when I thought nobody cared  
You were thinking of me

I went down for my last time  
You came to my rescue  
Now after all You've done for me  
I'm totally committed to live for You

And for goodness' sake I'll take up my cross  
And follow You whatever the cost  
I'll trust in You with every step I take  
I'm gonna live for You for goodness' sake

Two thousand years have come and gone  
But still the battle's raging  
The turn to vote between the right and wrong  
That everyday we're facing

So I want to spend my life  
Have been to see the truth  
'Cause after all You've done for me  
I'm totally committed to live for You

And for goodness' sake I'll take up my cross  
And follow You whatever the cost  
I trust in You with every step I take  
I'm gonna live for You for goodness' sake

And for goodness' sake I'll take up my cross  
And follow You whatever the cost  
I'll trust in You with every step I take  
I'm gonna live for You for goodness' sake

You saw my sin, You took the blame  
Because of me You suffered shame  
For all the pain that I put You through, Lord  
Giving You my life is the least I can do

For goodness' sake I'll take up my cross  
And follow You whatever the cost  
I'll trust in You with every step I take  
I'm gonna live for You for goodness' sake

For goodness' sake I'll take up my cross  
And follow You whatever the cost  
I'll trust in You with every step I take  
I'm gonna live for You for goodness' sake

For goodness' sake I'll take up my cross  
Follow You whatever the cost  
Trust in You with every step I take  
I'm gonna live for You for goodness' sake

For goodness' sake I'll take up my cross  
Follow You whatever the cost

Trust in You with every step I take  
I'm gonna live for You for goodness' sake

I'm gonna live for You for goodness' sake  
I'm gonna live for You for goodness' sake  
I'm gonna follow You, Lord for goodness' sake
