

Miracles

NewSong

I never saw a man that walked on water
I never heard a voice that could calm the sea
Raise the dead or feed five thousand
But in my heart I do believe

I was in a desperate situation
Drowning in a sea of my own sin
And it would take a miracle to save me
That's when I reached toward heaven
Felt someone touch me
I looked up and I saw Him

And I believe in miracles
I'm a miracle myself
And I believe the good Lord hears
The ones who cry for help
And after all that He has done for me
I believe, I do believe in miracles

So many people look for signs and wonders
They miss the greatest miracle of all
Well it's the miracle of sweet salvation
That's when the God of heaven
Comes down to live inside of someone's heart

[repeat chorus]

When it feels like my strength is almost gone
And my faith is weak
Lord, You're always there for me
You make it easy to believe

[repeat chorus]
