

# Longshot

Newton Faulkner

It's all there underneath  
Everything we'll ever need  
You and I  
Look around and you will see  
Broken minds and shattered dreams  
Wasted time  
But I don't mind loosing sleep  
Squeezing through the cracks between  
Day and Night

It's such a long shot  
Everything that we've got  
Just living on this rock  
Surrounded by the sea  
With our shoes off  
Balancing on rooftops  
You put your faith in preachers  
I put my faith in me

Given time we could've seen  
All the things he could've been  
If he'd tried  
But he settled for the English dream  
Lived in mediocraty  
Stood in line  
But that's not enough for me  
I will kick and I will scream  
Tell you why

It's such a long shot  
Everything that we've got  
Just living on this rock  
Surrounded by the sea  
With our shoes off  
Balancing on rooftops  
You put your faith in preachers  
I put my faith in me

I don't wanna waste your time  
I don't wanna waste your time

It's such a long shot  
Everything that we've got  
Just living on this rock  
Surrounded by the sea  
With our shoes off  
Balancing on rooftops  
You put your faith in preachers  
I put my faith in me

It's such a long shot  
Everything that we've got  
Just living on this rock  
Surrounded by the sea  
With our shoes off  
Balancing on rooftops  
You put your faith in preachers

I put my faith in me
