

Plastic Hearts

Newton Faulkner

It hasn't been that long but I have thought about you everyday
I've crossed everything and prayed and hoped you might feel the
same
I know I've done nothing but stared and smiled that's not too bad for me
I know I'm kinda shy but that don't mean I give up easily
Plastic hearts and polystyrene dreams is this real love [x2]
I am hiding in the corner I can't look you in the eye
I am terrified that if I do you'd run a mile
So I take it slow, slow, slow
I take it slow, slow, slow
Cuz you never know, know, know
You never know, know, know
Plastic hearts and polystyrene dreams is this real love [x2]
There you were and then you were gone in the morning
Waiting on assembly line
Plastic hearts and polystyrene dreams is this real love [x6]
