

Won't Let Go

Newton Faulkner

Go take more than you need
Its taken hold of me, its taken hold of me
Now you're looking for a rise
You won't get one from me,
Won't get one from me

Time moves slowly on your own
You're thinking for yourself it's time

You won't let go
But you're still falling
You're on your own
But you're still falling back to earth

Go on oh why can't you see?
That I'm not what you need
I'm not what you need
You'll find the answers are inside
So you can dry your eyes
Dry your eyes

Time moves slowly on your own
You're thinking for yourself it's time

You won't let go
But you're still falling
You're on your own
You should be thinking for yourself

Give it time
Let it breathe for a while
You won't let go
But you're still falling back to earth

Sun it mixes with the leaves
It gives you time to breathe
Gives you time to breathe
I'm no virtue but its right
Things aren't so black and white
Aren't so black and white

Time moves slowly on your own
You're thinking for yourself it's time

You won't let go
But you're still falling
You're on your own
Should be thinking for yourself
Give it time, let it breathe for a while
You won't let go but you're still falling back to earth
Back to earth
Back to earth
Back to earth
