

Write It on Your Skin

Newton Faulkner

Take everything you know and write it on your skin
And you can carry on and forget everything
Take everything you own and put it in your car
You can drive away, drive away so far,
And drive into a lake and take off all your clothes,
Set your clothes on fire, now you are alone
But you've got all you know written on your skin,
So you can carry on and forget everything

All the things I'd rather be,
All the things I'd rather be

I can't, I can't, I can't stay around here
I can't, don't leave me

Take everything you know and write it on your skin
And you can carry on and forget everything
Take everything you own and put it in your car
You can drive away, drive away so far,
Then drive into a lake and take off all your clothes,
Set your clothes on fire, now you are alone
But you've got all you know written on your skin,
So you can carry on and forget everything

All the things I'd rather be,
All the things I'd rather be

I can't, I can't, I can't stay around here
I can't, don't leave me
I can't, I can't, I can't stay around here
I can't, don't leave me

Life feels like a music box, I'm spinning round slowly
and I can't get off
And life feels like a music box,
I'm spinning round slowly and I can't get off
(Let's start again)
And life feels like a music box (start again),
I'm spinning round slowly and I can't get off (let's
start again)
And life feels like a music box
(start again) I'm spinning round slowly and I can't get
off

I can't, I can't, I can't stay around here
I can't don't leave me
I can't, I can't, I can't stay around here
I can't don't leave me

I can't, I can't, I can't stay around here.
