Dream  
Imagine  
Close your eyes

Now I might not have  
5 or 6 cars in my garage  
But would you settle for a nice massage  
And the love of a lifetime

Girl, I swear to God that  
With a whole lot of love  
And little bit of faith that we can make it  
You just gotta believe that

We could roll till the wheels fall off  
(And)  
I'mma love you till my soul's gone on  
( 'Cause)  
It can happen, baby, just hold on  
Close your eyes and dream  
(And imagine that)

Imagine that smile ever leavin' your face  
Comin' home from work and never leavin' the place  
Got chocolates and champagne just for you to taste  
(Close your eyes)  
Close your eyes, girl, imagine that

Imagine Benzes in the parkin' lot  
A different chauffeur for every car you got  
Islands to settle on a private yacht  
(Just close your eyes)  
Close your eyes, girl, imagine that

I know you deserve  
More than I got right now  
But baby, there's no doubt  
'Cause you've always stayed down

I swear to God that  
With a whole lot of love  
And a little bit of faith that we can make it  
You just gotta believe that

We could roll till the wheels fall off  
(And)  
I'ma love you till my soul's gone on  
(Hey)  
It can happen, baby, just hold on  
Close your eyes and dream

(And imagine that)

Imagine that smile ever leavin' your face  
Comin' home from work and never leavin' the place  
Got chocolates and champagne just for you to taste  
(Close your eyes)  
Close your eyes, girl, imagine that  
(And imagine that)

Imagine Benzes in the parkin' lot  
A different chauffeur for every car you got  
Islands to settle on a private yacht  
Close your eyes, girl, imagine that  
(Close your eyes and imagine that, girl)

(Some day)  
Just have my back and I promise that  
(Some way)  
I'll work hard to try to cop you that  
(If we pray)  
And believe, you will see that  
(It'll be okay)  
You just gotta dream and believe

Imagine that  
I can, can you, can we, we dream  
(Dream with me)  
You can have anything you need, a dream

But you've got to imagine that  
(Imagine)  
I can, can you, can we, we dream  
(You can)  
You can, if you close your eyes and imagine that

Imagine that smile ever leavin' your face  
Comin' home from work and never leavin' the place  
Got chocolates and champagne just for you to taste  
Close your eyes, girl, imagine that

Imagine Benzes in the parkin' lot, oh  
A different chauffeur for every car you got, oh, oh  
Islands to settle on a private yacht  
(Just close your eyes, girl)  
Close your eyes, girl, imagine that

Imagine that smile ever leavin' your face  
Comin' home from work and never leavin' the place  
Got chocolates and champagne just for you to taste  
(Oh, close your eyes)  
Close your eyes, girl, imagine that

Imagine Benzes in the parkin' lot  
(Parkin' lot)  
A different chauffeur for every car you got  
(Oh, oh)  
Island to settle on a private yacht  
(Just close your eyes)  
Close your eyes, girl, imagine that

Close your eyes and dream and  
Close your eyes and dream and  
Imagine that, imagine that, imagine that

Dream with me  
Imagine
