

## What You Want

Next

Uh, yeah, yeah, yo  
Hey yo, I told you from the get' boo, what's mine's is yours  
And I can put you in the seat over these mindless whores  
So why competin' with this spineless boar  
I mean look at G, he got all kinds of flaws  
Sittin' in the spot wit the shit box  
Rock's a sports center, playing Play Station  
(Damn, sound like I'm playa hatin')  
But I ain't into that, I'm hard core intersex  
Large born, click gone like the Internet  
Ain't you something precious, get out them double Lex's  
And them Sergio's here, lemme show you clothes  
You're ear, double "c's", them jeans double "g's"  
(Yo, I ain't gon' front)  
You can get her what you want (What?)

Baby girl what I need is what you want  
(What I need is what you want)  
I can buy you things  
Spend my money on you girl  
Cuz it ain't no thing  
Come here and get a taste of my love  
(Come and get a taste of my love)  
I got everything you need and more  
What's mine is yours and girl I'll give you more

Girl it's all true  
When you get me in the mood  
I just wanna wine you and dine you  
Ice you girl  
Hit you off, wanna make you my girl  
Cuz everytime your diamond shines  
Girl, the world will know you're mine  
Cuz you got what I want  
And girl, I got what you need

I wanna freak you and baby when I'm through  
You know you'll never be lonely  
And always be loved  
Have everything cuz you're all I want  
Cuz as a man I'll come correct  
Giving you from my respect  
Cuz you got the good love  
And I got the stuff you need

Uh, uh, yeah, yeah  
Everytime I look at sis I got the stare and the slow gaze  
I'm picturin' us first class, no show a day  
Just sayin' no grass, no snow days  
Look at me, hooks in me like the O'Jays  
Lemme stop trippin and I ain't about trickin'  
You got me bustin checks and I ain't even busted yet  
I told you from the jump, I ain't gonna front  
It's all up to you boo, tell me what you want

Girl I'll pay your bills if you freak me like I want  
I will give you something you can feel

Whenever you want it

Girl I'll pay your bills if you freak me like I want  
I will give you something you can feel  
You just come and get it

[Ad lib until fade]
