

# On the Loose

Niall Horan

I know what she's like  
She's out of her mind  
And wraps herself around the truth  
She'll jump on that flight  
And meet you that night  
And make you tear up the room

She loves when everybody's watching  
She knows the way her body moves  
She loves the way they all crawl back when she says  
She loves nobody else but you

She's on the loose (she's coming, she's coming)  
She's on the loose (she's coming, she's coming)  
Oh, she's coming for you  
She's on the loose (she's coming, she's coming)  
She's on the loose (she's coming, she's coming)

She'll dance in the dark  
A real work of art  
Her eyes could burn down the room  
So get out while you can  
You don't understand  
She doesn't know how to lose

Yeah, she loves when everybody's watching  
She knows the way her body moves  
She loves the way they all crawl back when she says  
She loves nobody else but you

She's on the loose (she's coming, she's coming)  
She's on the loose (she's coming, she's coming)  
Yeah, she's coming for you  
She's on the loose (she's coming, she's coming)

She'll run with your mind, pull you in tight  
Then trade you in for something new  
I know what it's like, I fell for it twice  
But now I'm just warning you

She loves when everybody's watching  
She knows the way her body moves  
She loves the way they all crawl back when she says  
She loves nobody else but you

She loves when everybody's watching  
She knows the way her body moves  
She loves the way they all crawl back when she says  
She loves nobody else but you

She's on the loose, and now she's coming for you  
She's coming for you  
She's on the loose, and now she's coming for you  
She's coming for you  
She's on the loose
