Waking up to kiss you and nobody's there
The smell of your perfume still stuck in the air
It's hard
Yesterday I thought I saw your shadow running round
It's funny how things never change in this old town
So far from the stars

And I want to tell you everything The words I never got to say the first time around And I remember everything From when we were the children playing in this fairground Wish I was there with you now

If the whole world was watching I'd still dance with you Drive highways and byways to be there with you Over and over the only truth Everything comes back to you

I saw that you moved on with someone new
In the pub that we met he's got his arms around you
It's so hard
So hard

And I want to tell you everything The words I never got to say the first time around And I remember everything From when we were the children playing in this fairground Wish I was there with you now

Because if the whole world was watching I'd still dance with you Drive highways and byways to be there with you Over and over the only truth Everything comes back to you You still make me nervous when you walk in the room Them butterflies they come alive when I'm next to you Over and over the only truth Everything comes back to you

And I know that it's wrong
That I can't move on
But there's something about you

If the whole world was watching I'd still dance with you Drive highways and byways to be there with you Over and over the only truth Everything comes back to you You still make me nervous when you walk in the room Them butterflies they come alive when I'm next to you Over and over the only truth Everything comes back to you Everything comes back to you
