

You and Me

Niall Horan

I got a young heart
And it's wild and free
And I don't know where it starts
But it ends with you and me
It's a hard road
As far as I can see
And I don't where I'm going
But I'll get back to you and me

Cause we're two kids
Trying to start a fight
No matter where we go
Yeah, we'll be alright
All I'm asking for
Little patience, please
Cause I know what's to come
And it's coming for you and me

Time has never been on our side
So won't you wait for me?
I lead a selfish life
Cause that's what I need
What do I have to do
To make you believe?
That it's all for you and me

From a distance
I can hear you cry
Don't you worry darlin'
Don't you say it's a cry
Cause I can promise it
Yeah I can guarantee
At the end of the road
I can see you and me

Time has never been on our side
So won't you wait for me?
I lead a selfish life
Cause that's what I need
What do I have to do
To make you believe?
That it's all for you and me

Cause when I look down the line
At the man I wanna be
Yeah it was known from the start
That it ends with you and me
