

Come On

Niceland

Take my baby
Take the little boy inside me
Think of all your friends and burn my clothes down
Just play a little more
Just play a little... harder
Take another round trip around the globe

I can't take more
I can't visit your lands
I can't put your pieces together now
from the things you've said now
Or you have seen too much
And you're so sad now
You're so far
But we collide

Just... Come on back, come on now
Try to think of every hour and every night
'cause nothing
can stop us now
Come on back, come on now
Try to forget how our fates torn us apart
'cause nothing
can stop us now

Believe it or not
I've been praying for us
But now it seems it wasn't enough
In an unexpected way
You've changed in front of my eyes
And I just had to realize

Take me in
Or make me forget you
There are people waiting for my turn
Only you can save me
From my growing possession
I am drowning now and
You're so far
But we collide

Just... Come on back, come on now
Try to think of every hour and every night
'cause nothing
can stop us now
Come on back, come on now
Try to forget how our fates torn us apart
'cause nothing
can stop us now
And nothing can happen now
And nothing can happen now
