

Shining

Niceland

I'm full of your power / you love me when I love you
Do you want me to... play? A touch under my skin
The morning, I find you where I left you last night
And you're still here for me and I'm just curious
Do you even sleep?
A bogus queen, a silent ear
You are who you appear...

Shining...there's a night and a day
Slowly shining...there's a night and a day
Slowly shining...there's a night and a day
You're slowly shining

You never give it up and you pay so much
I'd be lying saying I understand
Why do you do it all for me
Why are you shining out all of you
Just for me to see I'm a man?
And you're a woman
more than girls could ever be
I don't understand, I don't believe
But it's just all of you and me...

Shining... there's a night and a day
Slowly shining... there's a night and a day
Slowly shining... there's a night and a day
You're slowly shining

The millionth one
The brightest one
For a loverman
The only one
No, no, nowhere to run
No reasons for
Or to change a thing...
