

# Addicted

Nick Carter

From the first hit  
Saw my world come crashing down  
I'll never forget  
How you just blew my mind  
My head is spinnin'  
Feel my heart 'bout to explode  
On overload from the head to toe  
Round and round and round we go

So what, I'm addicted  
And now I can't live without your love  
Maybe it's crazy  
But I just can't get enough  
I can't fight the feeling  
I'd rather let you take me away  
I don't wanna break these chains  
I'd rather feel the pain  
You're such a good bad drug  
The one I can't give up  
You give me such a rush  
The one I'm thinking of  
You're such a good bad drug

Yeah, I'm strung out  
No, I can't see straight  
All you give I'll take  
You got me now  
Just coming back for more  
Oh, I-I'm not coming down  
Too much, too late  
On overload from head to toe  
Round and round we go

So what, I'm addicted...

I'm so hooked, I took your pill  
I can't stop can't get my fill  
There's no hope of quitting you  
Or getting off of our love

Don't need no therapy  
Unless your not around  
I'll get your chemistry  
I'm never coming down  
You got hold on me  
I want more, gimme more  
I need my fix

What I'm addicted...
