

Burning Up

Nick Carter

You

You are the game that I wanna play

And I

I just wanna know your name

The way you dance, dance, dance on the floor

While everybody drinks, drinks, drinks some more

It got me thinking 'Damn!'

I wanna take you back home with me

This club is so high

And your light it up it's ready to blow

Hands up, don't stop

If you're sexy then get out of control

Let's get fired up, get, get fired up

Let's get fired up, get, get fired up

Let's get fired up, get, get fired up

Let's get fired up, get, get fired up

I'm burning up and up

I'm burning up and up

I'm burning up and up

So all you sexy people burn it up

You not tryin' to sweat cause you have bought a nice dress

Don't you think, do you think your stylin'

Took a shot now she is whylin'

Haha reversin', poppin', drop it, drop it, stock markin'

She wet and I'm coast guardin'

I'mma let my boy Nick tell em wh-wh whats poppin'

The way you shake, shake, shake, shake that ass

It makes me wanna come, come, come get it fast

You got me thinking 'Damn!'

I wanna take you back home with me

This club is so high

And your light it up it's ready to blow

Hands up, don't stop

If you're sexy then get outta control

Let's get fired up, get, get fired up

Let's get fired up, get, get fired up

Let's get fired up, get, get fired up

Let's get fired up, get, get fired up

Lets go!

I'm burning up and up

I'm burning up and up (let's go, let's go, let's go)

I'm burning up and up

So all you sexy people burn it up

So everybody that is hot

Just cool off here and just take a shot

Put your cup in the air

And say you don't care

I don't care
Yo I don't care
Put your cup in the air and say you don't care
I don't care, I don't care
Put your cup in the air and say you don't care
