

# I Will Wait

Nick Carter

If you're gone before I wake up  
Just promise that you'll be okay, love  
Too many times you left me better  
We need to share this one together

So, I will wait for you  
This love was made for two  
And I'll hold on this time  
No, I won't leave you behind  
I will wait for you.

I promise darling that I won't sleep  
Until we reached the highest mountain peak  
Thanks for the times that you were there for me  
So let me payback all your charity

So, I will wait for you  
This love was made for two  
And I'll hold on this time  
No, I won't leave you behind

Girl, I've been so cruel  
I broke the golden rule  
So shame on me for leaving you this way  
I've turned this once before  
I've left you wanting more  
And we both know the fool's rushing

I will wait for you  
I will wait for you  
And I'll hold on this time  
And I won't leave you behind  
I will wait for you  
I will wait for you  
Wait for you, I will wait for you.
