

Move Until We Fly

Nick Kamen

Little by little i see
What you could be doin' to me
Can i take you there?
I'll take you there

Meet me by the store at nine
Don't be late we'll have a good time
If you dare
I'll take you there

But don't you worry
There's no need to hurry
We'll move until we fly
This could be forever,ever

Morning comes and you're with me
What we feel is ecstasy
I'll take you there
Can i take you there?

How this happened i don't know
But i'll never let you go
I'll take you there
Can i take you there

But don't you worry
There's no need to hurry
We'll move until we fly
This could be forever,ever

Heaven knows she's on my side
I've waited so long, i can fly
I'll watch over you forever

But don't you worry
There's no need to hurry
We'll move until we fly
This could be forever,ever

Your love is of burning flame
She doesn't even know my name
Can i take you there?
I'll take you there

But don't you worry
There's no need to hurry
We'll move until we fly
This could be forever,ever

I want you
I need you
I love you
Forever and ever
