

# Nobody Else

Nick Kamen

Nobody Else  
We can walk that walk  
Cause you look so special tonight, mmm...  
I can talk that talk  
Cause your eyes have said it right

I'll make you smile that smile  
When we're standing here face to face  
I want to kiss that kiss  
Till you tell me there's no mistake, mmm...

Oh, I feel like staying up all night with you  
Can make it till the daylight, oh baby...

Nobody else makes the ground start shaking away  
It's like an earthquake, mmm...  
Nobody else can treat you better  
I want you like nobody else

Nobody else...

When you sing that song  
Where your voice gets a little too high - too, too, too high...  
You can do no wrong  
It's my favorite lullaby, mmm...

Oh, I feel like staying up all night with you  
Can make it till the daylight, oh baby...  
Nobody else makes the ground start shaking away  
It's like an earthquake, mmm...  
Nobody else can treat you better  
I want you like nobody else

Nobody else makes the ground start shaking away  
It's like an earthquake, mmm...  
Nobody else can treat me better  
I want you like nobody else

Baby it's a fantasy in your heart  
I think we got a happy ending from the start...

From the start...

Oh, I feel like staying up all night with you  
Can make it till the daylight, oh baby...

Nobody else makes the ground start shaking away  
It's like an earthquake, mmm...  
Nobody else can treat you better  
I want you like nobody else

Nobody else makes the ground start shaking away - nobody else...  
It's like an earthquake, mmm...  
Nobody else can treat you better  
I want you like nobody else

Nobody else makes the ground start shaking away

It's like an earthquake, mmm...  
Noboy else can treat you better  
I want you like nobody else  
Nobody else... nobody else... oh, oh, oh...  
Nobody else... cause I want you...
