

Tell Me

Nick Kamen

Tell Me

Kamen, P. Leonard and D. Williams

The word is out on the street tonight
They say you come as a force of light
Well i know my chances look rather slim
But i will try and take you in

I see you floating past my door
Come on inside baby it's all right
Believe me i've fell for you
Each time you move i fall over

If you could stay one night
You would save my life
Won't you say so and tell me tell me
Maybe then you'll see what you mean to me
Then you'll say so and tell me

A friend of mine said i must be crazy
Imagine me lying next to you
Well listen girl i've got all the answers
Standing right in front of you

No one can stop me from trying
I've got the pace to keep up with you
You've always been my desire
So let's make a promise that we'll see through

If you could stay one night
You would save my life
Won't you say so and tell me tell me
Maybe then you'll see what you mean to me
Then you'll say so and tell me
If you could stay one night
You would save my life
Won't you say so and tell me tell me
Maybe then you'll see what you mean to me
Then you'll say so and tell me

Forgive me for saying your name
Well you never even explained

No one can stop me from trying
I've got the pace to keep up with you
You've always been my desire
So let's make a promise that we'll see through

If you could stay one night
You would save my life
Won't you say so and tell me tell me
Maybe then you'll see what you mean to me
Then you'll say so and tell me
If you could stay one night
You would save my life
Won't you say so and tell me tell me
Maybe then you'll see what you mean to me

Then you'll say so and tell me
